

We are updating the Marion County Hazard Mitigation Plan. Your feedback on this survey will help ensure our plan revision reflects the citizens' needs. The purpose of the Hazard Mitigation Plan is to identify hazards that could affect our county and develop plans and strategies to protect our citizens during these emergencies. Thank you for taking time to complete our short survey.

The Marion County Emergency Management Agency will be hosting public meetings in February 2024 to review and update our plan. If you would like information regarding the dates of public meetings, please go to the Marion County EMA website at www.tnmcema.org.

To take the survey online, please use the QR code below. If you have further questions or would like more information, please feel free to contact me.
